

Investiture Ceremony

‘As the flowers bloom ,so will you when the time is right’

April 27th was a particularly extraordinary day for St Joseph's School as a new set of students took over the school parliament for the year 2017-2018. It started with a beautiful day as we were blessed with the presence of Mrs. Girija Baiju who is the Principal of the Private International School of Abu Dhabi. During this special day, the newly elected students were invested into the parliament as they received their badges and flags from Mrs Girija Baiju and our beloved Principal Sister Carmen.

On this day, the newly invested parliament was filled with excitement as they could begin to fulfil their promises and duties to the school to the best of their ability and uphold the name of the school. We were also blessed with the delightful music sung by Mrs Shanti and the choir. The stage was exquisitely designed by our beloved creative and passionate art teacher. Over all this day was great success and this newly elected parliament brings even more hope in making a change from a great school to an amazing one.
