

Verte Beauté

Come up with mind blowing health and beauty tips and change your outlook this summer. Pass each of these hurdles to reach the end point with your brand-new end product:

1. Determine what beauty product you wish to work on (example: facemasks, lotions, etc).
2. Estimate the purpose and how successful the product will be.
3. Gather data using surveys or interviews to understand the user's needs and wants to further enhance and optimise your product.
4. Mention the product and ingredient benefits.
5. Gather your ingredients and create your product.
6. Conduct tests, evaluation and document your results.
7. Mention the steps used while making the product and directions for user usage.
8. Pack in additional health tip kit to assist the user to stay healthy and fit during this pandemic.

Steps 1, 4, 7 & 8 should be mentioned in the video expected be created.

Basic rules:

- Video should be taken in landscape.
- Maximum duration of the video: 3 mins.
- Students should come up with original ideas.

Last date of submission: 20th July 2020
