

'LET THE TINY ONES SPROUT'
GRADE 3- SUMMER ACTIVITY

ACTIVITY:

Students have to grow microgreens (sprouts) and record each day's observations as a video. It would be highly appreciated if the sprouts are grown to the maximum height possible. Finally combine the whole activity to a 3 minutes video. The nutritious benefits of the microgreens grown could be mentioned in the video by the student.

INSTRUCTIONS FOR THE COMBINED VIDEO:

May use time lapse for showing growth of the microgreens.

Every day's observation should be recorded and mentioned.

Video to be shot in landscape orientation.

LAST DATE TO SUBMIT:

25TH July-Saturday

**IT'S COMPULSORY FOR ALL VERTE CLUB MEMBERS TO PARTICIPATE.
OTHER STUDENTS IN GRADE 3 ARE ALSO ENCOURAGED TO
PARTICIPATE.**
