My experience

Leading up to the event, I trained hard, honing my skills and building my stamina. On the day of the competition, I arrived in Dubai, filled with nervous excitement. Each event was tiring, I gave it my 100%, with my competitive spirit pushing me to the peak of my physical limits. By God's grace, I managed able to secure one gold medal, 2 silver medals and 2 bronze medals. Despite the intense competition, I connected with swimmers from other schools and even made several friends. By the end of the competition, I felt fulfilled, my heart brimming with joy. It was an honor to represent my esteemed school, and I left the event with a deep sense of satisfaction and accomplishment.
